IDEAS TO IMPACT

01 TEAM PRESENCE

At least 2 team members must remain at their assigned table at all times, except during the official lunch/break period. Unauthorised absence may lead to **disqualification**.

02 ORIGINAL WORK ONLY

Copying another team's project, code, concept, presentation, design or content is strictly prohibited. Any form of plagiarism or unfair copying may result in immediate **disqualification**.

03 PPT / PRESENTATION IS COMPULSORY

Every team must prepare and submit a proper PPT/presentation for the final evaluation. Teams without a required presentation may not be considered for final judging.

04 MVP REQUIREMENT

For 3rd-year and final-year teams, the MVP must be functional and demonstrable. If the solution is a website or web application, it should be working and ready for demonstration. If it is a mobile application, the app should be functional and ready to demonstrate during evaluation.

05 DISCIPLINE & DECORUM

No unnecessary shouting, running, loud music, disruptive behaviour, excessive joking or activities that disturb other teams. Maintain a professional hackathon environment.

06 RESPECT OTHER TEAMS

Do not disturb, distract, interrupt or interfere with another team's work, equipment, presentation, discussion or development process.

07 NO DAMAGE / MISUSE OF PROPERTY

Participants must not damage, misuse, move without permission or interfere with college property, hackathon equipment, tables, chairs, electrical infrastructure or another team's belongings. Any intentional damage may result in disciplinary action and **disqualification**.

08 FAIR PLAY

Do not manipulate judging, fake project progress, submit false information, impersonate another participant or use unfair methods to gain an advantage.

09 FOLLOW ORGANISER & MENTOR INSTRUCTIONS

All teams must follow instructions given by organisers, mentors, judges and volunteers during the hackathon. Repeated violation of instructions may lead to **disqualification**.

10 SAFETY & RESPONSIBILITY

Use electrical equipment, hardware, tools and other resources responsibly. Keep your workspace clean and safe. Report technical or safety issues to the organisers immediately.

11 EVALUATION READINESS

Teams must keep their project, MVP/demo, PPT and required materials ready before the final evaluation. Last-minute incomplete submissions may negatively affect evaluation.

12 FINAL AUTHORITY

The organising committee and judging panel reserve the right to take appropriate action, including **disqualification**, in cases of serious or repeated rule violations.

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There is a vertical margin line on the left side, creating a narrow left margin. The paper appears to be from a notebook or a standard ruled sheet of paper.
